Subject Paraguay

Date

7/10 1986

You may remember that over the last 6 months or so there have been various published reports of structural similarity between Paraguay and a drug that produces Parkinson's Disease-like symptoms. Kristyna Locke, Sox Branch, told me she's been assigned to summarize the info. & write a report. It's not the priority, but she will do it probably in the next few months.

When I told Rich Zimmerman ^{Signed} about this, he said

An immediate reply will help finalize this matter. Dick Cavalli had written a position paper

Report on the issue that we could send to ^{Date} EPA. We ought ¹⁹ to submit it promptly, if CEHC thinks it's appropriate.
