1 INDEX OF EXAMINATION	$\square$ And I'm going to continue this morning
2 QUESTIONS BY MR. KELLY	<ul> <li>talking about topics that were raised in the direct</li> </ul>
QUESTIONS BY MR. KENNEDY	
3 QUESTIONS BY MS. REISMAN126 QUESTIONS BY MR. KENNEDY145	3 yesterday, and then as I mentioned yesterday, my
4	4 colleague has questions as well that may be different
5 INDEX OF EXHIBITS	5 and independent of that.
6 Exhibit 24, Neurotoxicology, Volume 19 by Roizin, et al.	6 MS. REISMAN: Mr. Kelly, I just have a
7 Exhibit 51, Letter by J.N. Ospenson29	7 question. You handed each of us a copy. Is one of
Exhibit 49, Notes on Meetings Held at	8 these intended for the court reporter or
8 CTL 6-9 October '75 Exhibit 48, 3/29/76 Memo from Cavalli to Ospenson 50	9 MR. KELLY: Oh, I thought the court reporter
9 Exhibit 50, 9/29/76 Letter from Cavalli	10 would get them. Sure. Why don't you give it to the
to Ospenson with Meeting Minutes	11 court reporter, please.
10 Exhibit 43, Paraquat Worker Safety63 Exhibit 45, 11/14/85 Letter to J.N. Sullivan68	12 MS. REISMAN: That's okay.
11 from J.N. Ospenson	13 MR. KELLY: Yeah. You have your own, I
Exhibit 111,A Study of the Health of Malaysian103	14 assume. Sorry.
12 Plantation Workers with Particular Reference to Paraquat Spraymen by J.K.	15 THE WITNESS: Am I supposed
13 Howard, et al	16 MS. REISMAN: Nothing you need to do.
Exhibit 40, The Toxicity of Paraquat	17 MR. KELLY: I have I have a third one.
14 by D.G. Clark, et al.	18 You don't have to do anything with it, sir.
16 (Exhibits are attached to transcript.)	19 THE WITNESS: Excellent.
17	20 Q (By Mr. Kelly) Okay. In the direct
18 19	<ul> <li>examination yesterday when you were asked what you did</li> </ul>
20	22 to learn about what other scientists and researchers
21 22	<ul><li>were doing and learning about paraquat, you mentioned</li></ul>
22 23	<ul> <li>that you had access to the toxicology literature and</li> </ul>
24	24 that you had access to the toxicology interature and 25 the medical literature from all over the world; is that
25	2.5 the medical metature from an over the world, is that
Page 7	Page 9
1 TUESDAY, AUGUST 23, 2022	1 true?
2 8:41 A.M. PACIFIC TIME	2 <b>A</b> I did have access to that.
3	3 Q And then that you had a system that would
4	4 flag papers and publications about paraquat, and your
5 VIDEOGRAPHER: Stand by. Good morning. We	5 library would get copies of those?
6 are now on the record. This is Volume II of the	6 A Yes.
1 1 5	
	<ul> <li>8 not a good question. Let me back up.</li> <li>9 Was the purpose for doing that so that you</li> </ul>

Were there any topics in the toxicology literature relating to human health effects of paraquat exposure that you asked the librarian not to pull and share with you?</li> <li>A No.</li> <li>Q If we go just to the front page, the title ''Cerebral Changes in Paraquat Poisoning,'' you can see up in the right-hand corner this is 1977. Are you with me?</li> <li>A I am.</li> <li>Q Come down the right-hand side and the paragraph that begins with the word ''we.'' Do you see that?</li> <li>Q All right. It says: ''We have had the</li> </ul>	1       remind you, Mr. Kelly, and the witness is he's here in         2       his individual capacity and can testify to his         3       recollection. He's not here testifying on behalf of         4       Chevron Corporation. That's a corporation in terms of         5       its person most knowledgeable of 30(b)(6).         6       MR. KELLY: Then let me rephrase that so         7       there's no ambiguity.         8       Q         9       the person who was directing paraquat inquiries,         10       research in toxicology from '77 to 1980 had you and any         11       members of the team that you identified yesterday ever         12       shared with pathologists what you and your group         13       thought should be an appropriate postmortem exam from a         14       histopathological point of view to identify brain         15       changes in human beings thought to be related to         16       paraquat exposure?         17       MS. REISMAN: Objection to form.         18       A       I I'm sorry. I just don't remember one         19       way or the other.       20         20       Q       (By Mr. Kelly) Okay. Did your group and         21       again, the group is the persons you identified for me
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	<ul> <li>the other.</li> <li>Q (By Mr. Kelly) Just to refresh, in '73, '74 when you were asked to focus in the area through '86, was it your custom and practice to read relevant literature about the health effects on the human brain of paraquat exposure?</li> <li>A Yes.</li> <li>Q Okay. Were there any topics in the toxicology literature relating to human health effects of paraquat exposure that you asked the librarian not to pull and share with you?</li> <li>A No.</li> <li>Q If we go just to the front page, the title ''Cerebral Changes in Paraquat Poisoning,'' you can see up in the right-hand corner this is 1977. Are you with me?</li> <li>A Iam.</li> <li>Q Come down the right-hand side and the paragraph that begins with the word ''we.'' Do you see that?</li> <li>A I think so, yes.</li> <li>Q All right. It says: ''We have had the opportunity to examine the brain of two patients who</li> </ul>	1remind you, Mr. Kelly, and the witness is he's here in2his individual capacity and can testify to his3recollection. He's not here testifying on behalf of4Chevron Corporation. That's a corporation in terms of5its person most knowledgeable of 30(b)(6).6MR. KELLY: Then let me rephrase that so7there's no ambiguity.8Q9(By Mr. Kelly) As of 1977, Mr. Cavalli, as9the person who was directing paraquat inquiries,10research in toxicology from '77 to 1980 had you and any11members of the team that you identified yesterday ever12shared with pathologists what you and your group13thought should be an appropriate postmortem exam from a14histopathological point of view to identify brain15changes in human beings thought to be related to16paraquat exposure?17MS. REISMAN: Objection to form.18A14I I'm sorry. I just don't remember one19way or the other.20Q21again, the group is the persons you identified for me22yesterday and yourself at any time author in writing23any kind of an outline or template intended to be read

Case 3:21-md-03004-NJR Document 2407-3 Filed 09/20/22 Page 7 of 41 Page ID #2750

Richard Cavalli August 23, 2022

	_	
	Page 14	Page 16
1	what the brain examination should consist of?	asking him about his current recollection
2	MS. REISMAN: Objection to form.	2 MR. KELLY: Counsel Counsel, let me
3	A No. I don't think we did.	3 just
4		5
	Q (By Mr. Kelly) Did you ever discuss whether	57
5	that would be helpful or of assistance to you and your	55,55
6	group in trying to identify whether or not there was on	, , , , , , , , , , , , , , , , , , ,
7	postmortem examinations changes in the human brain that	7 No.
8	were thought to be paraquat-related?	8 MS. REISMAN: For the record, I think we
9	MS. REISMAN: Objection to form.	9 should make it clear as to whether you're asking for
10	A Could you repeat? I'm sorry.	10 current understanding or his understanding back then.
11	Q (By Mr. Kelly) Yes, sir.	11 MR. KELLY: Fine. I'm going to proceed with
12	A Long question.	12 my questions, and if there's confusion, I'll depend on
13	Q Yeah, yeah.	13 the witness to ask me.
14	Did you and your group ever discuss whether	14 Q (By Mr. Kelly) Sir, the next sentence says:
15	you thought it would be helpful or of assistance to	15 "The most striking was a very pronounced accumulation
16	you in trying to identify whether or not there was on	16 of lipofuscin-like material in the ganglion cells
17	postmortem examination changes in human beings that	17 throughout the brain but most marked in the pallidum
18	were thought to be due to paraquat exposure to give	18 intralaminar nuclei of the thalamus, corpus geniculatum
19	pathologists doing postmortems a template or outline	19 laterale, substantia nigra, dentate and fastigial
20	of what should be done?	20 nuclei of the cerebellum."
21	MS. REISMAN: Objection to form.	21 Did I get that right? Maybe not so much
22	A I don't recall one way or the other.	22 with the Latin.
23	Q (By Mr. Kelly) Okay. I'm lower right-hand	A It's what it says on the page.
24	corner, there was some numbers. I'm all the way over	24 Q I want to ask you a couple questions about
25	to page 4700.	25 this sentence, sir. Do you know what lipofuscin
	Page 15	Page 17
1	_	Page 17 1 L-I-P-O-F-U-S-C-I-N like material is?
1 2	Page 15 Do you see that, sir? A 4700?	1 L-I-P-O-F-U-S-C-I-N like material is?
	Do you see that, sir? A 4700?	1       L-I-P-O-F-U-S-C-I-N like material is?         2       MS. REISMAN: Objection. Form.
2	Do you see that, sir? A 4700? Q Yes, sir.	<ol> <li>L-I-P-O-F-U-S-C-I-N like material is?</li> <li>MS. REISMAN: Objection. Form.</li> <li>A As I sit here, I don't know.</li> </ol>

I have no opinion as to whether where it         14       comes from.         15       Q (By Mr. Kelly) Does paraquat kill human cells         16       by oxidative stress?         17       MS. REISMAN: Objection to form.         18       A I'm not exactly sure what that term means.         19       Q (By Mr. Kelly) All right. Have you ever
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Do you see that, sir? A 4700? Q Yes, sir. A Yes. Q And I'm in the left-hand column under the heading "Results." Do you see that? A I do. Q And then it says: "Light Microscopic Examination, Case 1." And I'm in the paragraph that begins with the word "histological examination." Okay? "Histological examination, in addition to severe edema and congestion showed a number of quite marked morphological changes." Does the phrase "morphological changes" have significance to you, sir? MS. REISMAN: Objection to form. A I think it does. Q (By Mr. Kelly) Okay. What is a morphological	1       L-I-P-O-F-U-S-C-I-N like material is?         2       MS. REISMAN: Objection. Form.         3       A As I sit here, I don't know.         4       Q (By Mr. Kelly) Do you         5       A I mean, I don't know. No.         6       Q Have you ever known what lipofuscin-like         7       material is?         8       A Can't say one way or the other.         9       Q Do you know whether lipofuscin is caused by         10       oxidative stress?         11       MS. REISMAN: Objection to form.         12       A Since I sit here, I'm not sure what the word         13       means. I have no opinion as to whether where it         14       comes from.         15       Q (By Mr. Kelly) Does paraquat kill human cells         16       by oxidative stress?         17       MS. REISMAN: Objection to form.         18       A I'm not exactly sure what that term means.         19       Q (By Mr. Kelly) All right. Have you ever         20       known whether or not paraquat kills plant or human
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Do you see that, sir? A 4700? Q Yes, sir. A Yes. Q And I'm in the left-hand column under the heading "Results." Do you see that? A I do. Q And then it says: "Light Microscopic Examination, Case 1." And I'm in the paragraph that begins with the word "histological examination." Okay? "Histological examination, in addition to severe edema and congestion showed a number of quite marked morphological changes." Does the phrase "morphological changes" have significance to you, sir? MS. REISMAN: Objection to form. A I think it does. Q (By Mr. Kelly) Okay. What is a morphological change in your mind?	1       L-I-P-O-F-U-S-C-I-N like material is?         2       MS. REISMAN: Objection. Form.         3       A As I sit here, I don't know.         4       Q (By Mr. Kelly) Do you         5       A I mean, I don't know. No.         6       Q Have you ever known what lipofuscin-like         7       material is?         8       A Can't say one way or the other.         9       Q Do you know whether lipofuscin is caused by         10       oxidative stress?         11       MS. REISMAN: Objection to form.         12       A Since I sit here, I'm not sure what the word         13       means. I have no opinion as to whether where it         14       comes from.         15       Q (By Mr. Kelly) Does paraquat kill human cells         16       by oxidative stress?         17       MS. REISMAN: Objection to form.         18       A I'm not exactly sure what that term means.         19       Q (By Mr. Kelly) All right. Have you ever         20       known whether or not paraquat kills plant or human         21       cells by oxidative stress?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Do you see that, sir? A 4700? Q Yes, sir. A Yes. Q And I'm in the left-hand column under the heading "Results." Do you see that? A I do. Q And then it says: "Light Microscopic Examination, Case 1." And I'm in the paragraph that begins with the word "histological examination." Okay? "Histological examination, in addition to severe edema and congestion showed a number of quite marked morphological changes." Does the phrase "morphological changes" have significance to you, sir? MS. REISMAN: Objection to form. A I think it does. Q (By Mr. Kelly) Okay. What is a morphological change in your mind? A Change in structure of something.	1       L-I-P-O-F-U-S-C-I-N like material is?         2       MS. REISMAN: Objection. Form.         3       A As I sit here, I don't know.         4       Q (By Mr. Kelly) Do you         5       A I mean, I don't know. No.         6       Q Have you ever known what lipofuscin-like         7       material is?         8       A Can't say one way or the other.         9       Q Do you know whether lipofuscin is caused by         10       oxidative stress?         11       MS. REISMAN: Objection to form.         12       A Since I sit here, I'm not sure what the word         13       means. I have no opinion as to whether where it         14       comes from.         15       Q (By Mr. Kelly) Does paraquat kill human cells         16       by oxidative stress?         17       MS. REISMAN: Objection to form.         18       A I'm not exactly sure what that term means.         19       Q (By Mr. Kelly) All right. Have you ever         20       known whether or not paraquat kills plant or human         21       cells by oxidative stress?         22       MS. REISMAN: Objection. Form.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Do you see that, sir? A 4700? Q Yes, sir. A Yes. Q And I'm in the left-hand column under the heading "Results." Do you see that? A I do. Q And then it says: "Light Microscopic Examination, Case 1." And I'm in the paragraph that begins with the word "histological examination." Okay? "Histological examination, in addition to severe edema and congestion showed a number of quite marked morphological changes." Does the phrase "morphological changes" have significance to you, sir? MS. REISMAN: Objection to form. A I think it does. Q (By Mr. Kelly) Okay. What is a morphological change in your mind? A Change in structure of something. Q Okay.	1       L-I-P-O-F-U-S-C-I-N like material is?         2       MS. REISMAN: Objection. Form.         3       A As I sit here, I don't know.         4       Q (By Mr. Kelly) Do you         5       A I mean, I don't know. No.         6       Q Have you ever known what lipofuscin-like         7       material is?         8       A Can't say one way or the other.         9       Q Do you know whether lipofuscin is caused by         10       oxidative stress?         11       MS. REISMAN: Objection to form.         12       A Since I sit here, I'm not sure what the word         13       means. I have no opinion as to whether where it         14       comes from.         15       Q (By Mr. Kelly) Does paraquat kill human cells         16       by oxidative stress?         17       MS. REISMAN: Objection to form.         18       A I'm not exactly sure what that term means.         19       Q (By Mr. Kelly) All right. Have you ever         20       known whether or not paraquat kills plant or human         21       MS. REISMAN: Objection. Form.         23       A I'm not sure what oxidative stress means.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	Do you see that, sir? A 4700? Q Yes, sir. A Yes. Q And I'm in the left-hand column under the heading "Results." Do you see that? A I do. Q And then it says: "Light Microscopic Examination, Case 1." And I'm in the paragraph that begins with the word "histological examination." Okay? "Histological examination, in addition to severe edema and congestion showed a number of quite marked morphological changes." Does the phrase "morphological changes" have significance to you, sir? MS. REISMAN: Objection to form. A I think it does. Q (By Mr. Kelly) Okay. What is a morphological change in your mind? A Change in structure of something. Q Okay. MS. REISMAN: Again, Mr. Kelly, I'd ask	1       L-I-P-O-F-U-S-C-I-N like material is?         2       MS. REISMAN: Objection. Form.         3       A As I sit here, I don't know.         4       Q (By Mr. Kelly) Do you         5       A I mean, I don't know. No.         6       Q Have you ever known what lipofuscin-like         7       material is?         8       A Can't say one way or the other.         9       Q Do you know whether lipofuscin is caused by         10       oxidative stress?         11       MS. REISMAN: Objection to form.         12       A Since I sit here, I'm not sure what the word         13       means. I have no opinion as to whether where it         14       comes from.         15       Q (By Mr. Kelly) Does paraquat kill human cells         16       by oxidative stress?         17       MS. REISMAN: Objection to form.         18       A I'm not exactly sure what that term means.         19       Q (By Mr. Kelly) All right. Have you ever         20       known whether or not paraquat kills plant or human         21       cells by oxidative stress?         22       MS. REISMAN: Objection. Form.         23       A I'm not sure what oxidative stress means.         24       Q (By Mr. Kelly)
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Do you see that, sir? A 4700? Q Yes, sir. A Yes. Q And I'm in the left-hand column under the heading "Results." Do you see that? A I do. Q And then it says: "Light Microscopic Examination, Case 1." And I'm in the paragraph that begins with the word "histological examination." Okay? "Histological examination, in addition to severe edema and congestion showed a number of quite marked morphological changes." Does the phrase "morphological changes" have significance to you, sir? MS. REISMAN: Objection to form. A I think it does. Q (By Mr. Kelly) Okay. What is a morphological change in your mind? A Change in structure of something. Q Okay.	1       L-I-P-O-F-U-S-C-I-N like material is?         2       MS. REISMAN: Objection. 	Page 22	IH'I	NTIAI Page 24
1	did your group under your direction at any time		Q- (By Mr. Kelly) All right. And does addition
2	commission any consultation with a neurotoxicologist to	2	of this modifying language "PAS positive, mostly
3	evaluate whether or not a substantia nigra was or was	3	granular, partly brownish lipo lipofuscin-like
4	not something that would be affected negatively by	4	material," does that bring any more clarity to mind as
5	exposure to paraquat?	5	to what lipofuscin is?
6	MS. REISMAN: Objection to form.	6	MS. REISMAN: Objection to form.
7	A I don't recall any such discussion.	7	A No, it doesn't.
8	MS. REISMAN: One way or the other, or you	8	Q (By Mr. Kelly) Okay. Let's just go to
9	don't recall a discussion?	9	page 4711. And on on the left-hand column, sir,
10	THE WITNESS: Well, one way or the other.	10	60 percent of the way down, a sentence begins
11	MR. KELLY: Excuse me. Counsel, that's not	11	"Hypoxia"
12	appropriate to coach the witness.	12	Do you see that? "Hypoxia has also"?
13	MS. REISMAN: I was not Mr. Kelly, I am	13	A Not yet.
14	not coaching the witness. I've sat here as you've	14	Q Okay. Take take your time, sir.
15	asked question after question, some very unclear that	15	A You said on the left side?
16	the witness is confused about. I was making sure that	16	Q Yes, sir. On the column on the left just
17	the record was clear as to whether he didn't recall it	17	down here.
18	happening or whether he didn't recall it whether he	18	A Okay. Second yeah. First the far
19	didn't recall it either way, that it happened or not.	19	left word is "system"?
20	You can continue with your questioning. I	20	Q Yes, sir.
21	was not coaching the witness. I was making sure that	21	A Okay. I see.
22	his answer was clear.	22	Q "Hypoxia has also been indicated by some
23	MR. KELLY: May I just say that the process	23	authors as a possible cause of excessive production of
24	of exam and redirect is for the benefit of	24	lipofuscin. Pathological changes in the lungs of our
25	clarification, and to the extent that this is	25	cases, as well as in many cases from the literature,

#### Case 3:21-md-03004-NJR Document 2407-3 Filed 09/20/22 Page 10 of 41 Page ID #2753

Richard Cavalli August 23, 2022

	Page 26		Page 28
1	Q (By Mr. Kelly) So the next sentence begins:	A More know	ledgeable in neurotoxicity than I,
2	"Clinically, both of our patients developed breathing	2 likely.	reugeable in neurotoxicity than 1,
3	difficulties quite terminally."		lly) And not just limiting to you,
4	You understand what that means?		your group of five and in the
5	MS. REISMAN: Objection to form.		nteracted with at ICI, was there a
6	A Yes, I do.		ho regularly participated in the
7	Q (By Mr. Kelly) "Quite terminally" means at or	7 meetings you had w	
8	near the end of life, correct?	8 A I don't reca	all that one way or the other.
9	A Yes.		d 1973, '74, through 1986, did
10	Q And then the authors conclude "Thus, one	10 you yourself or any	members of your group that we
11	would presume that hypoxia of respiratory origin could	11 talked about yester	lay ever suggest that you should
12	not have played a decisive role in influencing	12 get a board-certified	d neurotoxicologist involved with
13	formulation of lipofuscin-like material in our cases."	13 your team?	
14	Do you understand what that means?	14 MS. REISMA	AN: Objection. Form.
15	MS. REISMAN: Objection to form.	15 <b>A</b> No, we did	
16	A I understand that's what's on the page.	~ ` •	lly) Did 1973 to 1986, did
17	Q (By Mr. Kelly) Well, do you understand what		up or yourself suggest that you
18	these authors are saying is the lipofuscin-like		y underwrite research on the
19	materials they saw were not in any way produced by	-	jury as a result of paraquat
20	terminal hypoxia?		a neurotoxicologist to research and
21	MS. REISMAN: Objection to form.	write on the topic?	
22	A The sentence reads "Thus, one would		AN: Objection to form.
23	presume"	23 <b>A I I don't</b>	
24	Q (By Mr. Kelly) Yes, sir.		lly) As a person who had attended
25	A So that that's	three classes at UC	SF, did you at any point think
	Page 27		Page 29
1	-	1 putting aside the of	_
1	Q This is the presumption of the authors,		her five people in the group it
2	Q This is the presumption of the authors, correct?	2 would be helpful to	her five people in the group it you to have a better understanding
2 3	<ul><li>Q This is the presumption of the authors, correct?</li><li>A It it is their presumption. Not not</li></ul>	<ul><li>2 would be helpful to</li><li>3 of the potential neuronal</li></ul>	her five people in the group it you to have a better understanding protoxicity of paraquat on human
2 3 4	Q This is the presumption of the authors, correct? A It it is their presumption. Not not having the case histories, the I don't know. You	<ul> <li>2 would be helpful to</li> <li>3 of the potential neu</li> <li>4 beings to have some</li> </ul>	her five people in the group it you to have a better understanding protoxicity of paraquat on human bebody from the UCSF
2 3 4 5	Q This is the presumption of the authors, correct? A It it is their presumption. Not not having the case histories, the I don't know. You ask the questions.	<ul> <li>2 would be helpful to</li> <li>3 of the potential neu</li> <li>4 beings to have som</li> <li>5 neurotoxicological</li> </ul>	her five people in the group it o you to have a better understanding protoxicity of paraquat on human bebody from the UCSF department consult with you?

2	Page 30	<b>T</b>	Page 32
2	orienting us.		lower right-hand corner, 1061, under the heading
	Do you see the last page, sir?	2	"Toxicology," this is one of the topics you're listed
- J	A I think I do, yes.	3	on for the addenda, correct?
4	Q Okay. And this is written by J.N. Ospenson?	4	A Yes.
5	MS. REISMAN: This being the last page is	5	Q It begins and says: "It was felt that the
6	written by J.N. Ospenson?	6	lack of chronic inhalation toxicity information and
7	MR. KELLY: Yes.	7	epidemiological surveys were a definite weakness in
8	Q (By Mr. Kelly) So it's a letter, correct?	8	properly evaluating the safety of paraquat use or
9	A Yes.	9	properly defending the safety of paraquat."
10	Q And it contains an agenda, if we believe the	10	Did I read that correctly?
11	top, for a March 27, 1974, paraquat conference ICI and	11	A You did. That's what's on the page.
12	Chevron Chemical Company, correct?	12	Q And were those opinions that you shared with
13	A That's what it says.	13	all of the people in attendance at this conference?
14	MS. REISMAN: Object to the form.	14	MS. REISMAN: Objection to form.
15	Q (By Mr. Kelly) And this is to be held at	15	A I have to say I do not have a specific
16	555 Market Street. Was that at the time a Chevron	16	recollection of this conference.
10	Chemical Company address?	17	Q (By Mr. Kelly) Okay. Were those your
18	A It was a Chevron address.		
10 19	Q Okay. And among the addressees, you are	18 19	opinions in 1974? MS. REISMAN: Objection to form.
20	listed as Number 1?	20	A I would not consider I mean, again, I
20	A I see that.	20	can't can't go back to '74. The no, I I
21		21	can't say one way or another.
22	Q And under the agenda topics, 2-B,	23	
23	toxicological aspects, you are listed with looks	23	Q (By Mr. Kelly) In your history of attending
24	like Dr. Kinoshita, K-I-N-O-S-H-I-T-A. Right? A That's correct.	24	these meetings, was it your understanding that the purpose of generating minutes or a meeting report was
2.5	A That's correct.	2.5	purpose of generating minutes of a meeting report was
	Page 31		Page 33
1	MS. REISMAN: Mr. Kelly, just a correction	1	to accurately document what had happened?
2	so the record's clear. You noted that this agenda was	2	MS. REISMAN: Objection to form.
3	for a meeting taking place on March 27. I believe	3	A Yes.
4	that last page	4	Q (By Mr. Kelly) And would you yourself keep a
5	MR. KELLY: No.	5	binder or a collection of meeting reports or minutes so
6	MS. REISMAN: indicates that it's an	6	that you could keep track of what happened
7	agenda for meetings being held on March 28 and 29.	7	historically?
8	MR. KELLY: Yeah. I'm sorry. I should have	8	MS. REISMAN: Objection to form.
9	said "it's dated."	9	A No.
10	Q (By Mr. Kelly) This letter is dated March 27,	10	Q (By Mr. Kelly) Do you have reason to believe
11	1974. And when we go to the front page, we see the	11	that these minutes are inaccurate in documenting what
12	meeting report, correct?	12	your thoughts were toxicologically in 1974?
13	A I'm sorry.	13	MS. REISMAN: Objection to form.
	Q Let's go to the front page of the exhibit	14	A I can't say one way or the other.
14	A Yes.	15	Q (By Mr. Kelly) In 1974, was there, in your
	Q which is page 10 1060?	16	opinion, a lack of chronic inhalation toxicity
14	A Yes.	17	information?
14 15	Q Okay. And you are listed here in the second	18	MS. REISMAN: Objection to form.
14 15 16	Q Okay. And you are listed here in the second		
14 15 16 17	line from the bottom, says "SOCAL-R.D. Cavalli." Do	19	A There was not a specific study, but we have

1	lack of chronic inhalation toxicity information?		felt that the lack of chronic inhalation toxicity
2	MS. REISMAN: Objection to form. Asked and	2	information and epidemiological surveys were a definite
3	answered.	3	weakness in properly evaluating the safety of paraquat
4	A Not information, no.	4	use or properly defending the safety of paraquat."
5	Q (By Mr. Kelly) Yesterday you told us you	5	My question to you is, was it part of your
6	would be you were in favor of doing an inhalation	6	job at any time between 1973 and 1986 to properly
7	study.	7	defend the safety of paraquat?
8	Do you recall that?	8	MS. REISMAN: Objection to form.
9	A I do.	9	A Again, those aren't my words, but I
10	Q And were you in favor of doing an inhalation	10	certainly believed at the time that it would be useful
11	study because there was a lack of chronic inhalation	11	in understanding the toxicity of paraquat to have
12	toxicity information?	12	several different kinds of studies, among the two
13	MS. REISMAN: Objection to form. Asked and	13	mentioned here.
14	answered.	14	Q (By Mr. Kelly) But with reference to the
15	A I have to give you the same answer. There	15	specific phrase "defending the safety of paraquat," did
16	wasn't a study, but there was information.	16	you understand that that was part of your job between
17	Q (By Mr. Kelly) In 1974, was it your opinion	17	1973 and 1986?
18	that the lack of epidemiological surveys were a	18	MS. REISMAN: Objection to form. Asked and
19	definite weakness in properly evaluating the safety of	19	answered.
20	paraquat use or properly defending the safety of	20	A Part of my job in those years, as I recall,
21	paraquat?	21	was to study the toxicity of paraquat, make
22	MS. REISMAN: Objection to form.	22	recommendations for its safe use, and review the world
23	A Once again, I don't recall what I said.	23	of of others. I I personally don't think of
24	Those are not my words.	24	that as defending.
25	Q (By Mr. Kelly) In 1974, did you believe that	25	Q (By Mr. Kelly) Was it any part of your work
	Page 35		Page 37

Case 3:21-md-03004-NJR Document 2407-3 Filed 09/20/22 Page 15 of 41 Page ID #2758

Richard Cavalli August 23, 2022

	Page 46		Page 48
1	MS. REISMAN: Objection to form.	$ \mathbf{L}_{1} $	didn't support involvement of the central nervous
2	A You know, again, I don't remember the	2	system.
3	specific meeting.	3	Q (By Mr. Kelly) Okay. My question,
4	Q (By Mr. Kelly) Okay.	4	Mr. Cavalli, was a little bit different. It's a
5	A So	5	little just a discreet question.
6	Q I'm wondering more generally in the '73 to	6	With reference to studying the CNS effect of
7	'86 period, do you have a memory of discussing that	7	ataxia in people exposed to paraquat, did you or your
8	topic?	8	group ever endeavor to study that focused topic?
9	MS. REISMAN: Objection to form.	9	MS. REISMAN: Objection to form. Asked and
10	A We discussed numerous topics, this may or	10	answered.
11	may not have been among them. I just that was a	11	A In human beings?
12	long time ago.	12	Q (By Mr. Kelly) Yes, sir.
13	Q (By Mr. Kelly) Well, I understand it was a	13	A Don't believe so.
14	long time ago, sir, but was potential central nervous	14	Q Okay. And then the sentence continues:
15	system effects of paraquat on human beings a topic of	15	"And Fletcher has received a few inquiries on
16	importance for the ICI Chevron group?	16	peripheral neurites."
17	MS. REISMAN: Objection to form.	17	Do you see that part of the sentence?
18	A Yes.	18	A Yes, I do.
19	Q (By Mr. Kelly) Okay. If we continue down	19	Q Do you know Dr. Fletcher?
20	this paragraph, do you see I'm starting with the	20	A I do.
21	sentence that begins with "Fisher"	21	Q He was your primary contact at ICI?
22	Do you see that?	22	A Yes.
23	A Uh-huh.	23	MS. REISMAN: Objection to the form.
24	Q Just the word "Fisher." That's someone's	24	Q (By Mr. Kelly) And did you and Dr. Fletcher
25	name?	25	at any time investigate or commission any analysis of
	D 47

Richard Cavalli August 23, 2022

	Page 50	171	TTIAT Page 52
1	MS. REISMAN: Objection to form. Asked and	$ \mathbf{L}_{\mathbf{I}} $	wrote on it was something you authored for review by
2	answered.	2	the person who was your superior, correct?
3		3	A Yes.
	A It would have included their examination		
4	would have found peripheral neuritis neuritis	4	Q All right. I just want to focus on two
5	excuse me had it been there.	5	things. First the first sentence says: "The
6	Q (By Mr. Kelly) Okay. I'm going to try and	6	following is a summary of the meetings held between
7	move with some dispatch. I'm moving to my next	7	myself and Ken Fletcher of CTL on February 17 and 18
8	exhibit. Mr. Cavalli, if you would put that aside.	8	1976."
9	Thank you, sir.	9	Did I read that correctly?
10	(Exhibit 48 has been marked and now	10	A That's what's on the page.
11	identified for the record.	11	Q And in this context, "myself" was you,
12	Q (By Mr. Kelly) This particular exhibit is	12	Mr. Richard Cavalli, right?
13	marked No. 48. This as you can see on the on the	13	A Yes.
14	first page, appears to be directed to Mr. J.N. Osperson	14	Q Okay. And and this would have been
15	[as pronounced]?	15	consistent with the arrangement that was struck where
16	MS. REISMAN: Ospenson.	16	Fletcher would be the primary contact for ICI, you
17	Q (By Mr. Kelly) Ospenson.	17	would be the primary contact for Chevron; is that
18	This is an internal Chevron document; is	18	true?
19	that right?	19	MS. REISMAN: Objection to form.
20	A Yes, it is.	20	A In matters pertaining to health effects,
21	MS. REISMAN: Now, I'm just going to object	21	yes.
22	because the copy that you've put in front of the	22	Q (By Mr. Kelly) Okay. I'm looking exclusively
23	witness, Mr. Kelly, is a Syngenta document. So I	23	here at Paragraph 3. This is in 1976. It begins: "We
24		24	
	don't know what your question is actually asking		discussed at some length the gaps in our knowledge of
25	but	25	the chronic effects of paraquat exposure."
	Page 51		Page 53
1	MR. KELLY: My question is you'll find	1	Did I read that correctly?
2	out if you wait.	2	A Yes, you did.
3	MS. REISMAN: No, no, no. My point is	3	Q And so in 1976, were both you and
4	you you said that this document, this particular	4	Dr. Fletcher acknowledging there were gaps in your
5	document is not a Chevron document. It is so I	5	knowledge regarding the effects of paraquat exposure?
6	just wanted to make that clear. You can go on with	6	MS. REISMAN: Objection to form.
7	your questions.	7	A You know, I I I don't recall this
8	Q (By Mr. Kelly) Do you see the last page, sir,	8	specific document. I don't recall what Ken and I
9	and where you are the signature on this document?	9	discussed, and I don't know we may have discusse
10	A Yes, I do.	10	gaps, but it doesn't say that we found gaps. But I
11	MS. REISMAN: Just so there's no	11	have very poor recollection of this.
12	Mr. Kelly, I'm objecting because this is not from	12	Q (By Mr. Kelly) Well, you do recall that at
13	Syngenta and are handwritten notes I mean, this is	13	this particular time in history, it would have both
14	not from Chevron files, and there are handwritten	14	been part of your personal practice and your job
15	notes on it. So at least on mine. So go ahead.	15	responsibilities to accurately report to Dr. Ospenson
16	Q (By Mr. Kelly) Let's focus on Exhibit 48	16	what transpired between you and Dr. Fletcher, correct?
17	here. You see it bears the date March 29, 1976,	17	MS. REISMAN: Objection. Objection to form.
18	directed to Mr. J.N. Ospenson.	18	A Yes. It would have been.
19	You know who that is, correct?	19	Q (By Mr. Kelly) There would be no incentive,
	A Yes.	20	purpose, or reason to mislead Dr. Ospenson, would
	Q And do you see the last page says: "Original	21	there?
20	Q And do you see the last page says. Original		A No.
20 21	Signed R.D. Cavalli Cavalli." Excuse me.	22	A 110.
20 21 22	Signed R.D. Cavalli Cavalli." Excuse me.		
20 21 22 23	Signed R.D. Cavalli Cavalli." Excuse me. A Yes, I see that.	23	Q The second sentence says: "The animal
20 21 22	Signed R.D. Cavalli Cavalli." Excuse me.

1		$ E_1 $	Q "in which he states that he has reviewed
1	That was a statement that you made here as	2	
2	of 1976, correct?	1	this area with Allen Calderbank and Arthur Waitt, an
3	A Correct.	3	they do not believe it warranted to repeat any of this
4	Q And you go on to say: "Some are poorly	4	work."
5	done." Right?	5	Did I say that correctly?
6	MS. REISMAN: Objection to form.	6	A You did.
7	What are you asking him?	7	Q And to repeat any of this work was asking
8	Q (By Mr. Kelly) You report here that with	8	them to repeat the animal studies to bring them up to
9	reference to the animal studies that are available,	9	date and to make sure they were not poorly done,
10	"some are poorly done." Correct?	10	right?
11	A That's what it says.	11	MS. REISMAN: Objection to form.
12	Q And are "poorly done studies" studies that	12	A Again, I don't remember the meeting.
13	you regularly rely on?	13	Q (By Mr. Kelly) And you are unable to
14	MS. REISMAN: Objection to form.	14	ascertain actually, I'll withdraw that.
15	A Could you	15	You then write as follows: "I agree with
16	Q (By Mr. Kelly) Yes, sir. My question was,	16	this" and this that phrase, "I agree with this"
17	are "poorly done studies" studies that you regularly	17	references not redoing the studies, correct?
18	rely on?	18	MS. REISMAN: Objection to form.
19	MS. REISMAN: Objection to form.	19	A I believe so.
20	A That's you know, I I I don't	20	Q (By Mr. Kelly) Okay. "I agree with this only
21	remember what studies I had in mind at that time. It	21	if we can do the proposed epidemiology study. If no
22	says "some," not "all," on the paper. I just don't	22	our only recourse will be to have good animal studies
23	remember one way or the other.	23	in this area."
24	Q (By Mr. Kelly) The next sentence says: "In	24	Did I read that correctly?
25	fact, the cause of death from chronic exposure to	25	A Yes, you did.
	Page 55		Page 5
1	paraquat could not be determined from these studies."	1	Q What is the proposed epidemiology study to
2	Do you see that sentence?	2	which you reference in the March 29, 1976
3	A Ido.	3	correspondence to Ospenson?
4	Q And it would be important to have current,	4	A The it would have been the study that was
5	valid, reliable studies from which the cause of death	5	ultimately conducted in Malaysia by Dr. Howard an
6	from chronic exposure to paraquat could be determined;	6	Dr. Sabapathy.
7	isn't that correct?	7	Q And so were you for Chevron proposing an
8	MS. REISMAN: Objection to form.	8	epidemiology study in Malaysia rather than a study in
9	A Yes.	9	the United States to substitute for the poorly done
10	Q (By Mr. Kelly) Then you go on to say:	10	animal studies referred to here?
11	"Dr. Fletcher agreed to review those and to consider	11	MS. REISMAN: Objection to form.
12	repeating certain of the studies."	12	A There – there were – I mean, basically,
13	Did I get that right?	13	yes.
14	A You did.	14	Q (By Mr. Kelly) Okay. Okay.
14	Q And does this reflect that you, in fact,	15	I'm going to next my exhibit, sir, which is
	asked ICI to get current studies that were not poorly	16	Exhibit 50.
		17	A Thank you.
16	done?	1	A Thank you. (Exhibit 50 has been marked and now

8	Q (By Mr. Kelly) Once a year in Manchester,	8	A No. Again, I don't specifically recall the
9	once a year in California?	9	document or the meeting, but that's what's written on
10	MS. REISMAN: Objection to form.	10	the page.
11	Q (By Mr. Kelly) Is that right?	11	Q (By Mr. Kelly) Okay. In the September of
12	A Yes.	12	1976 which is ten years plus or minus since Chevron had
13	Q And beginning in 1973? Or had they already	13	been selling paraquat, did you and your group have in
14	begun before you were tasked with your paraquat	14	mind experimental or epidemiological work to assist in
15	responsibilities?	15	the defense of litigation?
16	A My recollection is that those meetings were	16	MS. REISMAN: Objection to form.
17	held before I got involved.	17	A One more time, please.
18	Q And for how long did they continue? Did	18	Q (By Mr. Kelly) Sure.
19	they continue all the way until 1986 when Chevron	19	Did you and your group in 1976 ten years
20	withdrew from the business?	20	
20	MS. REISMAN: Objection to form.	1	after you had started or not you but Chevron had
22	-	21	started selling paraquat in the US have in mind what
22	A I believe they did.	22	kind of experimental or epidemiological reach would be
	Q (By Mr. Kelly) Okay. I just have one small	23	necessary to assist in the defense of litigation
24	piece of this that involves you that I wanted to speak	24	alleging injury from paraquat exposure?
0 E	-1	0.5	
25	about, and so if you will turn to the one, two,	25	MS. REISMAN: Objection to form.

Case 3:21-md-03004-NJR Document 2407-3 Filed 09/20/22 Page 19 of 41 Page ID #2762

Richard Cavalli August 23, 2022

	Page 62	FNITTAI Page 64
1	A Ido.	Q (By Mr. Kelly) And this I will tell you,
2	Q This would be some blood-related injury,	2 it's not on here, Mr. Cavalli, but the computer says
3	disease, or ailment; is that right?	3 this is from December 12 of 1978, if it makes any
4	A Yes.	4 difference, the way these documents are produced.
5	Q And/or some organ damage of some kind. We	5 And this is simply headed: "Paraquat Worker
6	don't know which organ, correct?	6 Safety." If we go to the end of it, is this your name
7	A Doesn't say that here.	7 with your initials?
8	Q Which organ?	8 A Yes.
9	A No, it doesn't.	9 Q All right. And can we, therefore, be
10	Q Okay. Focusing just on that, do you have a	10 assured that this is something that you authored,
11	memory of Chevron undertaking work that had as its	11 read, and then initialed as accurate?
12	focus hematological disorders or organ damage where it	12 A It would have been.
13	studied the effect of chronic exposure to help defend	13 Q If you would just go to the page in the
14	those lawsuits?	14 lower, the third the second page, I'm sorry. 3320.
15	MS. REISMAN: Objection to form. Asked and	15 MS. REISMAN: I don't have a 3320.
16	answered.	16 MR. KELLY: 2320. I'm sorry. I need to get
17	A Again, the work would have been done for the	17 my lenses refracted.
18	overall assessment of paraquat and its risks but as	18 Q (By Mr. Kelly) The last paragraph on
19	opposed to being done for litigation purposes.	19 page 32320.
20	Q (By Mr. Kelly) Was that done?	20 A Oh, okay. Looking at the wrong number.
21	MS. REISMAN: Objection to form.	21 Q Oh, yeah. I'm sorry. I see there's another
22	A I lost the paragraph. Oh, there it is.	22 one at the bottom.
23	MS. REISMAN: Objection to form.	23 The paragraph begins: "Due to paraquat's
24	Do you know what he's asking?	24 extremely low vapor pressure" Do you see that?
25	MR. KELLY: No. You don't have to ask him.	25 <b>A Yes.</b>

Case 3:21-md-03004-NJR Document 2407-3 Filed 09/20/22 Page 21 of 41 Page ID #2764

Richard Cavalli August 23, 2022

	Page 70	17	VTTAT Page 72
1	so.	Lil	of the attachments is the article you discussed
2	Q (By Mr. Kelly) Great. And that's what my	2	yesterday; is that correct?
3	next question. Are these the folks in your department?	3	A What was the number page number?
4	MS. REISMAN: Objection to form.	4	Q Yes, sir.
5	A Yes.	5	A 6?
6	Q (By Mr. Kelly) Okay. Do you know who R. Gwin	6	Q Yeah. 006 in the lower right-hand corner.
7	Follis is?	7	A Yes.
8	А Не	8	Q This is the article you were discussing
9	Q Was I think is the correct way to say it.	9	yesterday with counsel, right?
.0	A He was chairman of the board of Chevron for	10	MS. REISMAN: Objection to form.
1	many years.	11	A I believe it is.
2	Q And in 1985, who was Mr. Keller?	12	Q (By Mr. Kelly) Does this refresh your memory
.3	A George Keller was the chairman of the board	13	that this is how you saw this article, you saw it when
4	at that time.	14	it was forwarded to the company by the former chairman
.5	Q And Mr. Follis, after his retirement, did he	15	MS. REISMAN: Objection to form.
.6	remain in contact with the executives there at	16	A No. I saw this article that other people
.7	Chevron?	17	sent to me. I – I just – I have no memory of
8	MS. REISMAN: Objection to form.	18	letters between chairman and vice chairmans and all
.9	Foundation.	19	that.
0	A I have no idea.	20	Q (By Mr. Kelly) And when you say I have a
1	Q (By Mr. Kelly) On on this page 3004,	21	memory of it from other people sending it to me, are
2	Mr. Follis's letter to Mr. Keller talks about an	22	you referring to people within the company?
3	article about paraquat. And the second paragraph says:	23	A You know, I can't say one way or the other.
4	"Since we don't want to take any chance of facing an	24	Q Okay. Okay.
5	asbestos situation down the road, I am sure your people	25	MR. KELLY: Mr. Cavalli, thank you for your
	Page 71		Page 73

Page 74	<b>L</b> J	Page 76
A That would depend on the circumstances.		Q This was 1982 when you were still working at
-	2	Chevron, true?
		A Uh-huh. Yes.
		Q Before you gave testimony yesterday in
		response to the questioning of the Chevron attorney,
		can you tell me about what meetings to prepare you for
		your testimony you had with the Chevron attorneys?
-		MS. REISMAN: Objection to form.
	1	A In this in this matter?
		Q (By Mr. Kennedy) Yes, sir.
	1	A Okay.
		MS. REISMAN: What are you asking?
-		MR. KENNEDY: Let him answer.
-		MS. REISMAN: Are you asking for the number
		of times? I'm not going to allow him to testify with
*		respect to the content of those minutes.
		Q (By Mr. Kennedy) Sir, if you can please
		answer my question.
-		MS. REISMAN: Could you answer it without
		revealing any of the content of your meetings and
		conversations with counsel.
-		THE WITNESS: Okay.
-		Could you repeat your question?
		Q (By Mr. Kennedy) Can you tell me about the
		preparation that you had by the attorneys for Chevron
please. And if you	25	preparation that you had by the attorneys for chevron

objection to the use of this testimony without a hard	2	MS. REISMAN: And again, you can answer
copy or a full transcript and having directing this	3	other than with respect to the content of the meetings
witness to one single response.	4	that you have had with counsel.
With that objection, please proceed.	5	MR. KENNEDY: Do we have a Special Master
Q (By Mr. Kennedy) If you go to line 17, this	6	available?
was sworn testimony in the Ferebee case, was it not?	7	MR. FLOWERS: We can try.
A If you say so.	8	MR. KENNEDY: Check it out.
Q Question asked you	9	Q (By Mr. Kennedy) Please answer my question,
MS. REISMAN: Do you know whether it was	10	sir.
sworn testimony?	11	MS. REISMAN: You can you can answer
THE WITNESS: Well, looks like it.	12	without revealing the content of the conversations.
MS. REISMAN: Okay.	13	MR. KENNEDY: That's the third time. Once
Q (By Mr. Kennedy) "QUESTION: Doctor, can you	14	is enough. No?
answer my question once again, or can you answer it	15	MS. REISMAN: Well, I just I'm directing
once?	16	him not to answer with the respect to the content of
"If you put an ounce of paraquat on your	17	conversation.
skin, it will kill you, won't it, if you leave it on,	18	MR. KENNEDY: You've don't it three times.
if you don't wash it off?"	19	MS. REISMAN: You've asked the question
Your answer: "If you leave it on and if the	20	three times in an unclear way.
-	21	Q (By Mr. Kennedy) Go ahead, sir.
sufficient amount."	22	A I did meet with attorneys representing
Do you recall that testimony under oath?	23	Chevron on several occasions.
	1	
A I don't specifically recall it, but I see it	24	Q How many occasions?
	MS. REISMAN: Let me just have a standing objection to the use of this testimony without a hard copy or a full transcript and having directing this witness to one single response. With that objection, please proceed. Q (By Mr. Kennedy) If you go to line 17, this was sworn testimony in the Ferebee case, was it not? <b>A If you say so.</b> Q Question asked you MS. REISMAN: Do you know whether it was sworn testimony? THE WITNESS: Well, looks like it. MS. REISMAN: Okay. Q (By Mr. Kennedy) "QUESTION: Doctor, can you answer my question once again, or can you answer it once? "If you put an ounce of paraquat on your skin, it will kill you, won't it, if you leave it on, if you don't wash it off?" Your answer: "If you leave it on and if the skin breaks down, I would guess that might be a sufficient amount."	Q(By Mr. Kennedy) Sir, you remember and I2know it's a long time ago giving testimony all the3way back in in 1982 directly addressing the toxicity4of - of paraquat.5Do you ave cell that back in 1982?6A Do you have the name of the7QI'm going to let me bring that up.8MR. KENNEDY: If you can bring up9Mr. Cavalli's testimony from 4/29/1982, please.10Q(By Mr. Kennedy) This was the case ofFerebec. Do you recall that, sir?12A Yes. Thank you.13MS. REISMAN: Mr. Kennedy, do you have hardcopies of this?15MR. KENNEDY: Pardon me?16MS. REISMAN: Do you have hard copies ofyour exhibits?18MR. KENNEDY: I do not.19MS. REISMAN: Can we does anybody havehard copies?21MR. KENNEDY: This is transcript. This isnot23Q(By Mr. Kennedy) If you can go to page 1545,please. And if you25Page 75MS. REISMAN: Let me just have a standingobjection to the use of this testimony without a hardcopy or a full transcript and having directing thiswitness to one single response.With that objection, please proceed.QQ(By Mr. Kennedy) If you go to line 17, thiswas sworn testimony in the Ferebee case, was it not?AIf you say so.QQQMS

Richard Cavalli August 23, 2022

	Page 86	<b>ENITIAI</b> Page	88
1	that was manufacturing paraquat, correct?	1 looked, they found paraquat in the brain?	
2	A Yes.	2 MS. REISMAN: Objection to form.	
3	MS. REISMAN: During the time that	3 Foundation.	
4	A During during	4 A Again, if I could see the studies again, it	
5	Q (By Mr. Kennedy) During the time that you	5 might refresh my memory, but I don't recall one wa	ay or
6	folks were selling it from 1965 to '86, correct?	6 <b>the other.</b>	
7	A Yes.	7 Q (By Mr. Kennedy) Sir, can we agree that in	
8	Q Okay. And you understand Mr. Botham was	8 every animal study where they looked showed paraqua	at in
9	chosen by ICI to represent them and make statements of	9 the brain? Can we agree that that doesn't support the	
10	their behalf in this case. All right?	10 conclusion that paraquat can never get into the brain	
11	MS. REISMAN: Objection.	11 of an applicator, true?	
12	Q (By Mr. Kennedy) And assume that. All right?	12 MS. REISMAN: Objection to form.	
13	MS. REISMAN: Object object to form and	13 Foundation.	
14	foundation.	14 A You know, it it it depends on the	
15	Q (By Mr. Kennedy) All right. Again, ICI was	15 the circumstances under which these animals were	
16	the company that Chevron was working with to understand	16 exposed, and I just don't have that in my mind.	
17	the risks of paraquat, correct?	17 Q (By Mr. Kennedy) Well, you told us yesterday	
18	MS. REISMAN: Objection to form.	18 that a lot of these studies were high-dose studies,	
19	A Yes.	19 correct?	
20	Q (By Mr. Kennedy) And when they did a study,	20 MS. REISMAN: Objection. Form.	
21	they would share it with you, true?	21 Q (By Mr. Kennedy) Is that correct?	
22	MS. REISMAN: Objection to form.	22 MS. REISMAN: Objection to form.	
23	Foundation.	A Oh.	
24	A They shared with us. I I have no idea	24 MS. REISMAN: Objection to form.	
25	how complete that sharing was.	25 Q (By Mr. Kennedy) Is that correct, sir?	
	Page 87	Page	89
1	_		89

		ΗÌ	
1	A It could, yes.		- their brains because that would mean you would have to
2	Q (By Mr. Kennedy) And if you if you wanted	2	do an autopsy, correct?
3	to know if you wanted to know whether or not	3	MS. REISMAN: Objection to form.
4	paraquat could get into the brain of an applicator, the	4	Q (By Mr. Kennedy) Is that true, sir?
5	best study to do would be a low-dose, long-term chronic	5	A Yes. That's correct.
6	study, correct?	6	Q So with the animal studies with the
7	MS. REISMAN: Objection to form. I assume	7	animal studies it would be true that Chevron never did
8	you're asking about his recollections from back then.	8	a long-term study to look to see whether or not
9	He's not identified as an expert today.	9	paraquat got into the brain, true?
10	A I mean, there were chronic studies on on	10	MS. REISMAN: Objection to form.
11	paraquat.	11	A We did not, as I recall, any studies that
12	Q (By Mr. Kennedy) Sir, my question is: If you	12	in which the paraquat level in the brain was measured.
13	want to try to understand through animal studies	13	The chronic studies we did did look at behavioral
14	whether paraquat is going to get into the brain of an	14	effects and any pathology in the brain.
15	applicator, the best studies to do would be low-dose,	15	Q (By Mr. Kennedy) So the best study to
16	long-term chronic studies, true?	16	determine whether paraquat would actually get into the
17	MS. REISMAN: Objection to form and	17	brain was never done with respect to animals, true?
18	foundation.	18	MS. REISMAN: Objection to form. Asked and
19	A I think that's what was done.	19	answered.
20	Q (By Mr. Kennedy) Sir, the fact of the matter	20	Q (By Mr. Kennedy) Is that true, sir?
21	is neither Chevron nor ICI ever, ever did a long-term	21	MS. REISMAN: Objection to form. Asked and
22	chronic study to determine whether or not paraquat got	22	answered.
23	into the brain. That's the truth, correct?	23	A That study wasn't done.
24	MS. REISMAN: Objection to form.	24	Q (By Mr. Kennedy) Sir, you also testified
25	A We we had body of data that suggested	25	with with respect to these animal studies that the
	Page 91		Page 93
1	Page 91 that it didn't, and we didn't do such a study.	1	primary target of paraquat seemed to be the lung.
1 2	that it didn't, and we didn't do such a study. Q (By Mr. Kennedy) Never. You never did what	1 2	_
	that it didn't, and we didn't do such a study. Q (By Mr. Kennedy) Never. You never did what would be the best study to determine whether or not		primary target of paraquat seemed to be the lung.
2	that it didn't, and we didn't do such a study. Q (By Mr. Kennedy) Never. You never did what	2	<ul> <li>primary target of paraquat seemed to be the lung.</li> <li>Do you remember that?</li> <li>A Yes.</li> <li>Q And so we could be clear for the jury, just</li> </ul>
2 3	that it didn't, and we didn't do such a study. Q (By Mr. Kennedy) Never. 1	MS. REISMAN: Objection. Form.		were involved with warnings and education of
2	A And I believe we did.	2	applicators?
3	Q (By Mr. Kennedy) Stereology. Was stereology	3	MS. REISMAN: Objection to form.
4	available in the 1970s and the 1980s?	4	A One more time, please.
5	MS. REISMAN: Objection to form.	5	Q (By Mr. Kennedy) Your belief that paraquat
6	A What was the word?	6	could not get into the brains of applicators, did you
7	Q (By Mr. Kennedy) Stereology. Was that	7	share that belief with anyone at Chevron that was
8	available in in examining tissues of animal or human	8	involved with communicating with applicators by way of
9	beings? Was stereology available in the 1970s or '80s?	9	labels, warnings?
10	MS. REISMAN: Objection object to form.	10	MS. REISMAN: Objection to form.
11	A I'm not sure	11	A We shared the data that we had that was the
12	MS. REISMAN: Hold on. Let me just I'm	12	basis of my opinion that paraquat would not harm the
13	sorry let me just get an objection. Objection to	13	brain.
14	form.	14	Q (By Mr. Kennedy) And that's not my question.
15	Go ahead.	15	My question: Did you share your belief that paraquat
16	A I'm not sure I understand what you mean.	16	could not get into the brain of an applicator?
17	Q (By Mr. Kennedy) Was cell counting available?	17	Did you share that belief with any of the
18	Could you could you count the cells in tissue in the	18	folks at Chevron that had responsibility for creating
19	1970s and '80s to evaluate in animal studies? Could	19	labels and warnings and communicating with workers?
20	you count cells?	20	MS. REISMAN: Objection to form. Asked and
21	MS. REISMAN: Objection to form.	21	answered.
22	A You you could count red cells and white	22	A I don't have a recollection of specific
23	cells and mass cells and any other kind of cell in the	23	discussions about paraquat getting into the brain.
24	blood. I don't I don't know about counting	24	The discussions were on whether paraquat affected
25	cells – cells of the organ.	25	various organs including the brain.
-	cons cons or the organi	2.5	various of gans including the of ani.

#### Case 3:21-md-03004-NJR Document 2407-3 Filed 09/20/22 Page 28 of 41 Page ID #2771

Richard Cavalli August 23, 2022

		1	-
	Page 98	Page 10	0
1	man and in the basic of the second should be	A It supported that there were no neurological	
1	was paraquat in the brains of these people that had	- It supported that there were no near orogical	
2	been poisoned with paraquat, true?	2 effects.	
3	A Yes.	3 Q Again, I'm focused on paraquat in the brains	
4	Q Now, Chevron and and ICI have sent us	4 of workers. One of the things that you told us	
5	lawyers for for these applicators have sent us	5 supports your opinion and belief back in the '80s that	
6	26 reports.	6 paraquat did not get into the brain of applicators was	
7	MS. REISMAN: I'm sorry. You said the	7 these worker studies, true?	
8	lawyers of the applicators?	8 MS. REISMAN: Objection to form.	
9	MR. KENNEDY: Let me repeat my question.	9 A Yes. It was supportive of that.	
10	Q (By Mr. Kennedy) Chevron and ICI have sent us	10 Q (By Mr. Kennedy) And the worker study you	
11	reports, 26 reports, showing paraquat in the brains of	11 talked about was the Malaysian study, right, by Howard	1?
12	poison victims.	12 A Yes. Excuse me. Yes.	
13	Can you explain to me how does that support	13 Q And in that study, they found paraquat in	
14	your conclusion that paraquat cannot get into the	14 the urine of these workers, did they not?	
15	brain of a human applicator?	15 MS. REISMAN: Objection to form.	
16	MS. REISMAN: Objection to form.	16 A In the paper by Howard and Sabapathy, I	
17	A All of those persons died from pulmonary	17 don't recall.	
18	complications, pulmonary congestion, pulmonary	18 Q (By Mr. Kennedy) Well, the Chester paper that	
19	fibrosis. They were all in a state of hypoxia. The	19 dealt with the same group of Malaysian workers	
20	gross findings in the brain were suggestive and	20 evaluated as to whether or not they had paraquat in	
21	supportive of the kind of damage that occurs in a	21 their urine, did it not?	
22	hypoxic person or animal.	22 MS. REISMAN: Objection to form.	
23	In all of the studies done at lower doses	23 A Yes.	
24	where animals were not in extremis, people not	24 Q (By Mr. Kennedy) That's the same Malaysian	
25	people. I'm sorry.	25 study we've been talking about, but this is by Chester

Case 3:21-md-03004-NJR Document 2407-3 Filed 09/20/22 Page 29 of 41 Page ID #2772

Richard Cavalli August 23, 2022

	Page 102	Page 104
1	Q (By Mr. Kennedy) Nów, you testified in this	1 True?
2	Malaysian study by Dr. Howard that examinations were	2 A That's what it says.
3	done, and these workers with paraquat in their blood	
4	circulating through their brains were were perfectly	3 Q It's a 1981 study, right? 4 A Published in '81.
5	fine, perfectly healthy on examination.	
6		
	Do you recall that testimony?	6 A It would have.
7	A Yes, sir.	7 Q Go to the next page, 36.
8	MS. REISMAN: Objection.	8 See in that right-hand column right above
9	Mr. Cavalli, I know it's been a while since	9 "Exposure to Paraquat"? Look right above that. I
10	we've been going this morning. You just need to give	10 think it indicates that this involved 27 paraquat
11	me a minute before you respond.	11 spraymen.
12	A I'm sorry.	12Do you see that right-hand column?
13	MS. REISMAN: Give me a moment to object	13 A Yes.
14	when I need to.	14 Q Right above "Exposure to Paraquat,"
15	Objection to form on that question.	15 27 workers, true?
16	Q (By Mr. Kennedy) Oh. Sir, do you have an	16 A Yes.
17	answer to my question?	17 Q All right. If you'll go to the next page,
18	A Can you repeat it?	18 37. You see where it says "Clinical Examination"?
19	Q Question: You testified in the Malaysian	19 Could you take a look at that?
20	study by Dr. Howard that examinations were done and	20 MR. KENNEDY: Could you pull that up,
21	these workers with paraquat in their blood circulating	21 please, and
22	through their brains were perfectly were perfectly	22 <b>A</b> Yes.
23	normal and healthy on examination?	23 MR. KENNEDY: highlight "Clinical
24	MS. REISMAN: Objection to form.	24 Examination."
25	Q (By Mr. Kennedy) Correct? Remember that	25 <b>A Yes. I see it.</b>
		Dama 105
1	Page 103	Page 105
1	testimony?	1 Q (By Mr. Kennedy) It says "Clinical
2	A Yes, I do.	2 Examination." Again, I'm trying to understand how you
3	Q And I think you testified that on	3 are drawing the conclusion there were no neurologic
4	examination that there were neurological or central	4 findings on on examination. All right?
5	nervous system findings. Do you recall that?	5 The paper says: "All workers were given a
6	A I do.	6 full clinical examination, particular attention being
7	Q And what I want to ask you about is how you	7 paid to the respiratory system and the skin."
8	arrived at this conclusion that there were no	8 Did I read that right?
9	neurologic findings and that they were perfectly	9 A You did.
10	healthy on exam. All right?	10 Q So they're paying closer attention to the
11	MR. KENNEDY: If you can give us	11 respiratory system in the skin, that seemed to be
12	Exhibit 111.	12 their primary focus.
	(Exhibit 111 has been marked and now	13 Would you agree?
13		14 MS. REISMAN: Objection to form.
13 14	identified for the record.	
	identified for the record. A Can I get a I'm supposed to look at it?

Richard Cavalli August 23, 2022

	Page 106	ריד	Page 10
1	Q (By Mr. Kennedy) And there's no mention	$ \mathbf{L}_{1} $	upon any education or any training or ever the
2	anywhere in this paper as to what their finding were on	2	performance of such an examination, true?
3	examination.	3	MS. REISMAN: Objection to form.
4	Would that be true?	4	A Except for the examinations I underwent
5	MS. REISMAN: Objection to form.	5	myself.
6	A I'd have to read it.	6	Q (By Mr. Kennedy) All right. You continued
7	Q (By Mr. Kennedy) And, sir, the physician	7	and your testified also on on questioning from
8	that that did did these examinations was was	8	Chevron's counsel that this Howard study did not show
9	the physician even a neurologist? Do you know?	9	any signs of of Parkinson's disease amongst these
10	MS. REISMAN: Objection to form.	10	patients.
11	Foundation.	11	Do you recall that testimony?
12	A I don't believe either one was, but I don't	12	A I do.
13	remember.	13	
14		14	Q Do you know the early signs of Parkinson's disease?
15	Q (By Mr. Kennedy) And were you provided with with any kind of a data or documents at any	15	
15 16		16	MS. REISMAN: Objection to form.
17	time that would tell you what examinations were actually done and what the findings actually were?	17	A I know relatively little about Parkinson's
18		18	disease. O (By Mr Kennedy) Well let me ack you. These
18 19	A They the discussions that we had leading	19	Q (By Mr. Kennedy) Well, let me ask you. Thes examinations that were done, did did they look for
20	up to this study, the full clinical examination meant	20	•
	the kind of evaluation of the function of the nervous	20	orthostatic changes in blood pressure? Do you know?
21	system that you would get by looking at an intact		MS. REISMAN: Objection to form.
22	person. It's part of the clinical examination.	22	A No, I don't. I don't know that.
23	Q Was that anywhere in the were you	23	Q (By Mr. Kennedy) Do you know that that's an
24 25	provided with a protocol that told you specifically	24 25	early sign of Parkinson's disease?
20	and can you tell us here today what examinations were	25	MS. REISMAN: Objection to form.
	Page 107		Page 10
1	done and what the findings were?	1	Foundation.
2	MS. REISMAN: Objection to form.	2	A I do not.
3	A I don't recall the protocol as we sit here.	3	Q (By Mr. Kennedy) Did these examinations and
4	Q (By Mr. Kennedy) And I think when you when	4	evaluations look into dream enactment, do you know?
5	you testified in response to the to the questions	5	A Say that again.
6	asked by Chevron's counsel and I think here today	6	Q Dream enactment?
_	you you testified that a standard clinical exam		
7		7	MS. REISMAN: Objection. Form.
8	was was done?	8	MS. REISMAN: Objection. Form. Q (By Mr. Kennedy) Did they look into that
	was was done? A That correct.		-
8 9		8	Q (By Mr. Kennedy) Did they look into that
8	A That correct.	8 9	Q (By Mr. Kennedy) Did they look into that during these valuation of these 27 Malaysian workers?

	Page 114	FI	NTIAI Page 116
1	MS. REISMAN: Objection to form. And he's	╢┛┙	how long paraquat would stay in the brain of a dog?
2	testifying as in his individual capacity, not on	2	"ANSWER: I don't recall that a study like
3	behalf of Chevron.	3	that was done.
4	You can give your response to the extent you	4	"QUESTION: At any time between 1960 and
5	have personal knowledge subject to my objection to	5	1986, did ICI or Chevron do any studies to determine
6	form of the question.	6	how long paraquat would stay in the brain of a monkey?
7	A I I I don't specifically well,	7	"ANSWER: I don't recall seeing that
8	would you ask the question again. I'm sorry.	8	study a study like that.
9	Q (By Mr. Kennedy) Sir, you told us there was	9	"QUESTION: Between 1960 and 1986, with
10	no need for follow-up examinations because paraquat was	10	respect to any animal, did ICI or Chevron do a study
11	rapidly eliminated from the body, and my question is	11	to determine how long paraquat would stay in the brain
12	isn't it true that neither you nor anyone at Chevron	12	after exposure?
13	knew how long paraquat remained in the brain?	13	"ANSWER: I think we already discussed
14	MS. REISMAN: Objection to form.	14	earlier, we couldn't find a study where they analyzed
15	Foundation.	15	paraquat in the brain. So that so that it
16	A I I don't have a specific memory one way	16	stayed in the brain or that it was there. So far as I
17	or the other. There was a lot of information	17	know, there's no data about paraquat in the brain."
18	available how long paraquat stayed in the body.	18	Do you have any recollection, sir, that
19	MR. KENNEDY: Pull up the testimony of	19	would dispute the accuracy of the testimony of the
20		20	person representing Chevron on that issue?
20	McMillen taken on April 27, '22, if you could, please.	21	MS. REISMAN: Standing objection for pulling
	MS. REISMAN: Do you have a hard copy of	22	out portion of this testimony without all the
22	this, Mr. Kennedy?	23	testimony present to be able to see context for this
23	MR. KENNEDY: No.	1	
24	MS. REISMAN: I'm just going to object to	24	and other statements made during the deposition.
25	the extent you're going to pull out a single question	25	Object to form.
25	the extent you're going to pull out a single question Page 115	25	Object to form. Page 117

		follow-ups of those survivors, correct?
		MS. REISMAN: Objection to form.
		A We did not.
		Q (By Mr. Kennedy) And with respect to the
-		animal studies, Chevron never determined how long
-		paraquat stayed in the brain, correct?
		MS. REISMAN: Objection to form.
		A Yes.
-		Q (By Mr. Kennedy) And with respect to the
-		animal studies, the long-term chronic low-dose exposure
		studies, Chevron never did those type studies to see if
		paraquat got into the brain, correct?
-		MS. REISMAN: Objection to form.
		A Specifically, no. But we did do
•		observations during the lifetime of the animals, a
		determination that showed that accepted very, very
		high doses. The lung was compromised. There was no
		change in brain anatomy or function to the extent it
		could be noted.
-		MR. KENNEDY: I would move to strike.
		Q (By Mr. Kennedy) I'm going to ask you a
· · · · · · · · · · · · · · · · · · ·		question again. Would it be true that Chevron never
		did long-term low-dose studies to determine whether or
		not paraquat was in the brain?
safety?	25	MS. REISMAN: Objection to form. Asked and
Page 119		Page 121
MS. REISMAN: Objection. Form. Asked and	1	answer.
-	2	Q (By Mr. Kennedy) True? It never looked to
A You know, it would depend on the	3	see if it got into the brain in a rat, a mouse, a dog,
-	4	a monkey, a hen, a dog, or a goat, true?
	5	MS. REISMAN: Same objection.
	6	A I no. I don't believe we did.
	7	Q (By Mr. Kennedy) And Chevron never did an
<b>U</b>	8	epidemiology study in the United States of America, did
	9	they?
		MS. REISMAN: Objection to form.
-	11	A No.
		Q (By Mr. Kennedy) And Chevron never did an
		epidemiology that specifically looked to see whether or
· · · ·		not workers were developing early signs and symptoms
		with Parkinson's, correct?
		MS. REISMAN: Same objection. Form.
		A No.
-		Q (By Mr. Kennedy) And when you folks received
		brain tissue from from people that had been poisoned
		by paraquat and had died, when you received that brain
		tissue, you evaluated it to determine whether or not
		there was paraquat. But you never did detailed
A Yes.	22	histopathological examinations of that brain tissue,
A 103.		
Q With respect to the poisoning cases when the	24	correct?
	<ul> <li>Animal?</li> <li>MS. REISMAN: Objection to form.</li> <li>Q (By Mr. Kennedy) A rat, a mouse, a dog, a fonkey. Any reason why they couldn't have done that for to 1986?</li> <li>MS. 1	with respect to those.	<b>E</b> <sub>1</sub> <b>N</b> A Yes
2	Q (By Mr. Kennedy) And other than counsel, the	2 Q Do you still practice toxicology?
3	attorneys representing Chevron, did you speak with	3 A I do not.
4	anybody else in preparation for your deposition?	4 Q Have you practiced toxicology since you
5	A No.	5 retired in 1999?
6	MR. KENNEDY: I don't think I have any	6 <b>A</b> I have not. Excuse me.
7	further questions unless I missed something?	7 Q Have you kept abreast with the with the
8	MR. FLOWERS: No.	8 literature? Have you kept up with the scientific
9	MR. KENNEDY: All good here.	9 literature on any topic since 1999?
10	MS. REISMAN: Thank you.	10 <b>A Not really.</b>
11	Why don't we break for lunch and come back	11 Q And with respect to paraquat specifically,
12	at 1:00, 1:15? What do you think? Good? 1:15.	12 have you done anything to keep up with the literature
12	-	13 on paraquat since Chevron left the business in 1986?
13	VIDEOGRAPHER: Okay. We're going off the	13 on paraquat since Chevron left the business in 1980? 14 A I have not.
	record at 12:05 p.m.	
15 16	(A break was taken.)	
	VIDEOGRAPHER: Stand by. We're back on the	16 last couple of days that no document that you have
17	record at 1:27 p.m.	17 seen has refreshed your recollection.
18	[EXAMINATION]	18 So is it correct that your testimony here
19	QUESTIONS BY MS. REISMAN:	19 today and yesterday is based only on your
20	Q Good afternoon, Mr. Cavalli.	20 recollections of your understandings prior to when
21	A Good afternoon.	21 Chevron exited the paraquat business in 1986?
22	Q We're back from a break for lunch, and the	22 MR. KENNEDY: Objection. Form. Leading.
23	same rules apply to my questioning as those that apply	23 A That's correct.
24	to Mr. Kelly's, Mr. Kennedy's and my own yesterday.	24 Q (By Ms. Reisman) Now, you testified that you
25	Can you hear me, Mr. Cavalli?	25 believe that paraquat applicators had low-dose
	Doct 107	Dogo 120
	Page 127	Page 129
1	A I can.	1 exposures over several years. I believe that was
2	Q Are you having difficulty hearing me?	2 something that you testified to earlier today, and you
3	A Well, the air conditioner is competing with	3 agreed with Mr. Kennedy that the same that that was
4	you.	4 the same, that low-dose exposure over several years was
5	MS. REISMAN: Can we shut let's go off	5 the same as chronic low-dose exposure?
6	the record.	6 MR. KENNEDY: Objection. Leading.
7	VIDEOGRAPHER: Going off the record at	7 Q (By Ms. Reisman) Mr. Kelly, I'm just setting
8	1:27 p.m.	8 the stage and reminding him of testimony. I haven't
9	(A break was taken.)	9 even gotten to my question.
10	VIDEOGRAPHER: Stand by. We're back on the	10 MR. KENNEDY: I'm going to object to the
11	record at 1:28 p.m.	11 speeches prior to the question being asked.
12	Q (By Ms. Reisman) Good afternoon, Mr. Cavalli.	12 MS. REISMAN: I'm going to ask you to please
13	A Good afternoon.	13 hold your objections until there is a question on the
14	Q I was just saying we're back from lunch, and	14 table. I'm reminding the witness where we are.
15	I just wanted to remind you that the same rules apply	15 Q (By Ms. Reisman) You agreed with Mr. Kennedy
16	to my questioning as as as did apply when	16 earlier that low-dose exposures over several years was
17	Mr. Kelly, Mr. Kennedy were asking you questions.	17 the same as chronic low-dose exposure.
18	That is if you don't understand my question, just let	18 Do you recall that testimony?
19	me know. And if you get fatigued and are losing	19 MR. KENNEDY: Objection. Leading.
20	focus, let me know and we can take a quick break.	20 A Yeah, I think so.
21	A Okay.	21 Q (By Ms. Reisman) Did you have an
22	Q I want to talk to you, Mr. Cavalli, first	22 understanding as to how many times a year a field
23	about your appearances here today and the basis for	23 worker in the US would apply paraquat?
24	your testimony. I believe you testified yesterday	A My impression at at the time, I believe,
25	that you left Chevron in 1999; is that correct?	25 was that in the United States, paraquat was sprayed

Richard Cavalli August 23, 2022

	Page 130		Page 132
1	intermittently and only for short periods of time	$ \mathbf{L}_{1} $	yesterday about the central nervous system effects
2		2	listed in that study. So I want to talk to you about
2	during the year.	3	
	Q Do you recall how many times a year a		that study and those questions now.
4	paraquat a field worker would apply paraquat?	4	If you would turn to page 128 of that study,
5	A No, I don't.	5	Mr. Cavalli, which has Bates No. 879 on the bottom and
6	Q Do you remember if it was a few times or	6	tell me when you are with me.
7	many times during a year?	7	A We're getting there. Okay. Yes, I am.
8	A I really couldn't say.	8	Q In the left column of that page, there is a
9	Q To the best of your knowledge and	9	paragraph that begins "Signs of Poisoning after
10	understanding when you worked on paraquat issues, was	10	Intraperitoneal Dosing."
11	the frequency of a farmer/field worker's exposure more	11	Do you see that?
12	akin to I think you just called it a intermittent,	12	A I do.
13	sporadic exposure?	13	Q And Mr. Kelly read you several sentences
14	MR. KENNEDY: Objection. Leading.	14	from that paragraph. I recall him reading, I think,
15	Q (By Ms. Reisman) Would you characterize	15	through the first sentence, second sentence, third
16	farmer/field worker exposure as inter intermittent	16	sentence, and fourth sentence. And I want to read to
17	exposure?	17	you a sentence that follows the passage that Mr. Kelly
18	A That was my understanding.	18	read to you yesterday.
19	MR. KENNEDY: Objection. Leading.	19	Do you see a sentence that begins
20	Q (By Ms. Reisman) Did you understand did	20	"Additionally " in the middle of that two-thirds
21	did you have an understanding as to whether it was	21	of the way through that paragraph?
22	sporadic?	22	A Yes, I do.
23	MR. KENNEDY: Objection. Leading.	23	Q I'm going to begin reading there.
24	A That was my impression.	24	"Additionally, in the earlier stages breathing might
25	Q (By Ms. Reisman) Well, let me ask you. How	25	be gasping or, alternatively, deep and fast."
1	Page 131 would you describe farmer/field worker exposure to	1	Page 133 Do you see that?
2	paraquat in the US?	2	A Yes, I do.
3	A The my understanding is that it would be	3	Q What does that indicate to you as to what
4	used for weed control maybe once, maybe twice a year.	4	was occurring in these rats?
5	Q What type of animal study would that be most	5	A That indicates that the rats' pulmonary
6	similar to?	6	system, the lungs were not working well.
7	A Say probably a subacute study or, depending	7	Q Does that indicate some lung damage?
8	on the frequency, of just acute studies.	8	A Yes. That's better way to put it.
9	Q Would you liken the exposure that you just	9	Q Yesterday you said you mentioned that you
10	described that paraquat workers in the US had as akin	10	disagree with the author's statement of findings with
11	to chronic studies in animals?	11	respect to these CNS central nervous system effects
12	A Not exactly, no.	12	in this study. How so?
13	Q I want to switch gears now, Mr. Cavalli, and	13	A Well, again, the animals were having
14	talk to you about a an exhibit that was marked	14	difficulty exchanging oxygen, and it would be in a
15	by I actually think it was Mr. Kelly yesterday.	15	mildly to severe hypoxic state and a secondary effec
16	You should have it in front of you. It's Cavalli 40.	16	of that would occur in the nervous system.
17	(Exhibit 40 has been marked and now	17	Q In the next paragraph of that study,
18	identified for the record.	18	Mr. Cavalli, Mr. Kelly read you the first sentence of
19	A Yes, I have it.	19	that paragraph, and I'd like to read to you a sentence
20	Q (By Ms. Reisman) Cavalli 40 Cavalli 40 is	20	that follows.
21	an article entitled "The Toxicity of Paraquat," authors	21	"In animals which survived for a number of
22	Clark D.G. Clark, T.F. McElligott, and Weston Hurst.	22	days after the last of a series of ascending doses,
23	Are you with me, Mr. Cavalli?	23	the later signs of illness were chiefly difficulty
20	A Yes, I am.	24	breathing" and it goes on.
24			
24 25	Q Mr. Kelly asked you several questions	25	What does that passage indicate to you about

1	the animals?	Lil	those the only animal studies that Chevron and you
2	A Again, pulmonary damage.	2	relied on in the early years?
3	Q Yesterday you testified that there were no	3	A I believe there were other – other animal
4	reports and it may have been this morning. It was	4	studies.
5	during Mr. Kelly's questioning. You testified that	5	Q Were the results of Dr. Calandra's studies
6	there were no reports of CNS effects, central nervous	6	on paraquat consistent with the other animal data that
7	system effects in the animal studies you reviewed.	7	you had at the time?
8	Did you mean that you didn't recall any	8	A Yes, they were.
9	studies reporting primary effects of paraquat in the	9	Q And were those studies conducted by IBT on
10	brain and central nervous system?	10	paraquat repeated at a later time?
11	MR. KENNEDY: Objection. Leading.	11	A They were.
12	A Yes.	12	Q Did the results of those studies that were
13	Q (By Ms. Reisman) Let me ask it this way:	13	repeated at a later time, that is, when those studies
14	What did you mean when you said you did not recall any	14	were done, did those studies change your understanding
15	studies reporting central nervous system effects in	15	of the toxicity of paraquat?
16	animal studies that you reviewed?	16	MR. KENNEDY: Objection. Leading.
17	A That I was not aware of any study that	17	A No, they did not.
18	showed a primary effect on the nervous system.	18	Q (By Ms. Reisman) Did you learn anything new
19	Q Okay. Switch gears with you again,	19	from those strike that.
20	Mr. Cavalli. Following up on another area of	20	You've testified several times the last
21	questions by the plaintiff's counsel.	21	couple days about a body of knowledge that you relied
22	Mr. Kelly asked you yesterday who you	22	on for your understanding as to the toxicity of
23	considered most knowledgeable about paraquat at	23	paraquat and your belief and understanding that could
24	Chevron when you became more involved in the 1973 and	24	be used safely when it was used in accordance with the
25	1974 time period, and you answered "no one."	25	label.
	Page 135		Page 137
1	Now, I understand you didn't think any one	1	Were there non-IBT animal studies and other
2	person was most knowledgeable. Were there people at	2	data that you relied on as part of that body of
3	Chevron who you believe had knowledge and understood	3	knowledge that
4	the toxicity of paraquat prior to your more focused	4	A There were certainly other other data,
5			
	involvement in 1973 and 1974?	5	some of which was from animal studies.
6	involvement in 1973 and 1974? A Yes, I do.		-
6 7		5	some of which was from animal studies.
	<ul> <li>A Yes, I do.</li> <li>Q And who were they?</li> <li>A That would have been Nils Ospenson, Lauren</li> </ul>	5 6	some of which was from animal studies. Q You were asked yesterday about whether you or your group conducted a formal study on the adverse health effects of paraquat in farm-related workers,
7	<ul> <li>A Yes, I do.</li> <li>Q And who were they?</li> <li>A That would have been Nils Ospenson, Lauren Stelzer, T.W. Reed, Dick Wessel. Case 3:21-md-03004-NJR Document 2407-3 Filed 09/20/22 Page 38 of 41 Page ID #2781

Richard Cavalli August 23, 2022

	Page 138	ריד	Page 140
1	Q (By Ms. Reisman) Same question that I asked	$ \mathbf{L}_{1} $	uring that it was airculating in their blood, and you
		2	urine that it was circulating in their blood, and you
2	you about the study on the health effects of paraquat		answered "yes"
3	on farm-related workers. Mr. Kelly asked you the same	3	A Yes.
4	question as to agricultural workers in the US; that is,	4	Q is that correct?
5	you were asked yesterday about whether you or your	5	A Yes, I did.
6	group conducted a formal study of risks to	6	Q He then asked you if that blood circulated
7	US agricultural workers applying paraquat.	7	through the brain, and you said "yes."
8	Why didn't you or anyone in your group	8	Do you recall that?
9	conduct a formal study of those workers with respect	9	A Yes, I do.
10	to health risks	10	Q What part of the brain was that blood
11	A Well, there were	11	circulating through?
12	Q to those workers?	12	A It would have been in the major blood
13	A There were former there were formal	13	vessels and smaller blood vessels and the capillaries
14	studies available to us that had been done by others	14	Q Was it circulating through brain tissue
15	that showed, again, very low exposure to paraquat.	15	under those circumstances?
16	Q And what did that low exposure to paraquat	16	A I don't believe so.
17	tell you about the risk to those workers?	17	Q Switching gears once again, Mr. Cavalli,
18	A Low exposure, low risk.	18	bear with me. I want about training.
19	Q Did Chevron sponsor any of those US studies	19	You were asked a series of questions on
20	done on worker exposure in the US, if you recall?	20	whether you have ever trained paraquat applicators, or
20		21	field workers, or farmers, I think the question was.
22	A I believe we did one, at least.	22	And you said you had never personally done
	Q You were asked whether you or anyone in your	23	that training, but you mentioned that you had trained
23	group commissioned an epidemiologic survey to evaluate	1	
24 25	the safety of paraquat use, and you were also asked whether Chevron ever conducted such an epidemiologic	24 25	field representatives, and that's what I want to talk to you about today.
	Page 139		Page 14
1	-	1	Page 14 Do you recall doing training of field
1 2	survey, and you answered "no" to both questions.	1 2	_
	survey, and you answered "no" to both questions. Did you support such a study being done,		Do you recall doing training of field
2	survey, and you answered "no" to both questions.	2	Do you recall doing training of field representatives with respect to paraquat? A Yes, I do.
2 3 4	survey, and you answered "no" to both questions. Did you support such a study being done, even if Chevron itself did not technically commission or conduct it?	2 3 4	Do you recall doing training of field representatives with respect to paraquat? A Yes, I do. Q And what did you train them on?
2 3 4 5	<ul> <li>survey, and you answered "no" to both questions.</li> <li>Did you support such a study being done,</li> <li>even if Chevron itself did not technically commission</li> <li>or conduct it?</li> <li>A Yes.</li> </ul>	2 3 4 5	Do you recall doing training of field representatives with respect to paraquat? 1	representing the plaintiffs in this case.	$ \mathbf{L} $	A- The as I understood it, the technical
2	You testified just now that it was your	2	field rep's job was to assist – assist understanding
3	understanding that paraquat applicators only applied	3	how to use paraquat, what it did, what it didn't do.
4	paraquat once or twice a year; is that your testimony?	4	They also did a lot of work on crops. But they were
5	MS. REISMAN: Objection. Form.	5	in contact with, as I said, the ag extension agents
6	A That was my did I specifically say once	6	and quite often with groups of farmers.
7	or twice a year?	7	Q (By Mr. Kennedy) Well, when you would meet
8	Q (By Mr. Kennedy) Yes.	8	with them, and knowing and understanding that they
9	A That was my understanding at the time, yes.	9	would be talking to farmers and applicators, did you
10	Q And so is it your testimony that the entire	10	ever tell them that every time Chevron or ICI did an
11	time that you were at Chevron and you were evaluating	11	animal study, whether it was rats, mice, dogs, pigs,
12	the risk of paraquat on applicators, you were always	12	goat, hens, or monkeys, every time they found paraquat
13	assuming that they would never apply paraquat more	13	in their brain, did you tell that to the to the
14	than once or twice a year?	14	field reps?
15	MS. REISMAN: Objection to form.	15	MS. REISMAN: Objection to form.
16	A No. That's not correct.	16	A No. I don't I don't remember that.
17	Q (By Mr. Kennedy) Then your testimony is you	17	Q (By Mr. Kennedy) Did you tell the field reps
18	don't know whether it's only once or twice a year?	18	that you folks had received brain tissue on autopsy and
19	MS. REISMAN: Objection to form.	19	26 times you found paraquat in the brains on autopsies?
20	Q (By Mr. Kennedy) Is that your testimony?	20	Did you tell the field reps that so they could
21	A My my testimony is that we had a large	21	communicate that to the farmers and applicators?
22	database which we were able to apply to paraquat	22	MS. REISMAN: Objection to form.
23	workers in the field without without consideration	23	A No.
24	of it being just once or twice a year.	24	Q (By Mr. Kennedy) Did you tell them at all
25	Q So you understand some apply 20 times a	25	about the the 1966 Clark study that we talked so
	Page 147		5 140
