**Subject:** Dicamba Weekly Team Meeting

Wyatt, TJ 1:18 PM:

What would be a typical timeline for a registration action like this?

Wyatt, TJ 1:22 PM:

Have/Will the registrants submit a description of the benefits of the use of dicamba as part of this action?

Nesci, Kimberly 1:27 PM:

BEAD's reviewed the list closely and we have thoughts on what's possible

Tindall, Kelly 1:33 PM:

note: there are states saying that incidents are coming AFTER (2-3 weeks after) cutoff dates. People still aren't complying. Maybe the incidents will decrease, but there will likely be some regardless of a cutoff dates.

Wyatt, TJ 1:34 PM:

:D

Kaul, Monisha 1:39 PM:

Engentia cover letter states labels are identical except for a rate change in sugarcane. No new data are planned to be submitted.

XtendiMax cover letter says to use the previously submitted information and that they plan to submit a revised label to address drift/volatility concerns.

Chism, William 1:44 PM:

Can we get the United Soybean Board, Cotton Council, and Ag Retailors Association support us otherwise noncompliance problem will not change.

Nesci, Kimberly 2:05 PM:

Maybe an outline for the briefing?

Matuszko, Jan 2:05 PM:

I think that would be helpful

Meadows, Sarah 2:05 PM:

Definitely

Echeverria, Marietta 2:08 PM:

does timeline work for BEAD?

Echeverria, Marietta 2:08 PM:

@kn?

Nesci, Kimberly 2:08 PM:

We'd prefer to get the outline by Thurs am, if possible
