Hello, fellow appointees,

I hope your week is going well.

If you're able, it'd be great to all have lunch together (briefly!) next Friday, May 2—especially given we have so many new faces. Fifteen minutes. Bring your own lunch. Somewhere in the building or the courtyard (I'll send a location after we see numbers and weather). Please feel free to share this with other EPA appointees I may have missed. Please accept or decline this based on your plans so we get a room the appropriate size.

All the best,
Paige

Please join us in celebrating Earth Day this year with a springtime stroll. We welcome you to take your stroll with a friend, group, or solo. For those located at Headquarters, you may join a group at the corner of 12th Street NW and Constitution Ave NW to walk and enjoy the Enid A. Haupt Garden behind the Smithsonian Castle. For our colleagues in the RTP and the Regional Offices, please consider taking a 30-minute walk around an area of your choosing. While on your walk, keep an eye out for blooms, pollinators, and other wildlife in the area! If you snap photos of your walking group, please share them with Tom Tyler for the Monday message.

Inhalation Toxicology to Support NAMs Chemical Screening: Transcriptomic Profiles

To establish relevance and build confidence in New Approach Methods (NAMs) to screen inhalable chemicals, acute inhalation exposures in animals can provide comparable endpoints such as transcriptomic profiles. This presentation will present a transcriptomic approach to compare in vivo and in vitro responses to 4 airborne volatile organic compounds, focusing on genes and biological pathways which may be relevant for acute adverse outcome pathways. Key differences in experimental design, including species, biological matrix, cell type, and exposure methodology can result in significant differences in transcriptomic results. Comparisons of benchmark dose modeling between these approaches can inform risk assessment following appropriate dosimetric adjustments.

Hello, fellow appointees,

I hope your week is going well.

If you're able, it'd be great to all have lunch together (briefly!) next Friday, May 2—especially given we have so many new faces. Fifteen minutes. Bring your own lunch. Somewhere in the building or the courtyard (I'll send a location after we see numbers and weather). Please feel free to share this with other EPA appointees I may have missed. Please accept or decline this based on your plans so we get a room the appropriate size.

All the best,
Paige

Please join us in celebrating Earth Day this year with a springtime stroll. We welcome you to take your stroll with a friend, group, or solo. For those located at Headquarters, you may join a group at the corner of 12th Street NW and Constitution Ave NW to walk and enjoy the Enid A. Haupt Garden behind the Smithsonian Castle. For our colleagues in the RTP and the Regional Offices, please consider taking a 30-minute walk around an area of your choosing. While on your walk, keep an eye out for blooms, pollinators, and other wildlife in the area! If you snap photos of your walking group, please share them with Tom Tyler for the Monday message.

Hello, fellow appointees,

I hope your week is going well.

If you're able, it'd be great to all have lunch together (briefly!) next Friday, May 2—especially given we have so many new faces. Fifteen minutes. Bring your own lunch. Somewhere in the building or the courtyard (I'll send a location after we see numbers and weather). Please feel free to share this with other EPA appointees I may have missed. Please accept or decline this based on your plans so we get a room the appropriate size.

All the best,
Paige

You will need to know and information you need to gather to create an SF182:

- **DO NOT Register** for any training/conference/college course **prior to receiving HQ OHR final approval.** (No advance holding, reserving of any spots in these training events)
- Vendors contact information (address, phone, email)
- Address for the location of the conference/meeting/training
- Dates & number of course hours of the training
- Ask the vendor how they want to be paid for the training (Either via SF-182 or use the Purchase Card Holder-purchase card (office credit card)) Most Conferences/Annual Meeting and college level classes are paid via office credit card
- If using RTP Finance Center: You must contact the vendor and obtain the Unique Entity Identifier (UEI) number to add to your SF182. (Information below)
- FYI: Do not use your EPA Credit Card or personal credit card for these transactions.
- Gather attachments from the vendor website and upload to the SF182:
 - All Registration Costs and Information
 - Create a .pdf for each day the scheduled training, symposiums, workshops, conference, or annual meeting where training is available to upload to the SF182
 - Attach an Overview of the Training, or training at a conference/meeting with a full agenda

- Important: if you have attended other training in the past FY and they add up to over \$3500.00 then contact Julia Stokes regarding your Continued Service Agreement (CSA).
- Questions contact the OCSPP Training Coordinator (Julia Stokes)

UEI & Sam.gov

SF182s that go to RTP Finance Center for funding must now have the Unique Entity Identifier (UEI) number on the SF182. The participant must contact the training vendor and ask for this number. If the vendor says they do not have a UEI then you must advise them to go to www.SAM.gov and create one. The vendor will not be paid without a UEI number.

If using the PCH to pay for your training, you will not need the UEI number.

Lots of people from different orgs have a toe in the OPPT modernization process.

Much of the groundwork has been done already jointly by OPP and OPPT.

Cloud migration is on a critical timeline and is already behind schedule. OCSPP will incur resource and extensive time costs if it re-litigates this. OMS is basically renegeing on its approval for OCSPP and is currently resetting it to day one.

OMS shift is not explained and moving away from customer managed adds high levels of risk for the projects to run too slowly and fail on business objectives.

OPPT leaders in PMOD do not have modernization experience and are operating with a stuck in past mindset (e.g. more patched together custom apps that are very costly to maintain and subject org to vendor lock with CGI — some very large ongoing costs)

Todd has been running point on the project even though he retires in a month. Makes no sense.

OCSPP needs to make milestones such as moving off of unsupported software and systems like the legacy apps and Documentum. Major costs involved with refactoring and updating old apps for a very short shelf life.
